

DATE: October 10, 2012  
TO: Citizens of Leisure Lake  
FROM: Eastern Iowa Regional Utility Service Systems (EIRUSS)  
REASON: Meeting to Present Information About the New Sewer System

In January, 2005 EIRUSS and the Jackson County Board of Supervisors started the process of designing, financing and constructing a sewer system in Leisure Lake. That effort has reached the point where construction will begin before the end of 2012.

You probably have many questions about the project such as the construction schedule, when the sewer lines will reach your house, how you connect the system to your house, and what is the cost of service. Those questions and others will be discussed at a public meeting. You are invited to that meeting as shown below. We look forward to seeing you.
